DETAILED ACTION

1. Acknowledgment is made of the amendment filed 10/15/02.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all

obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 1-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Devrient, EP Patent No. 364,730, cited by the applicant, in view of Walker, US Patent No. 6,146,777.

Devrient discloses a production of book form identification comprising: an apparatus and methods for producing an identification document 1 (a passport) having data sheets 3-6; means for leafing the sheet; and laser printing means for printing information onto the sheets (see figures 3 and 4).

Devrient fails to disclose or fairly suggest a plurality of laser printing means and a plurality of sheet leafing means.

Art Unit: 2876

Walker discloses a passport identification document and personalization assembly process comprising: a first laser printer to print black and gray scale image and a second laser printer for printing colored text and images (see col. 3, lines 40-52).

In view of Walker's teachings, it would have been obvious for a person of ordinary skill in the art at the time the invention was made to modify the teachings of Devrient to incorporate a plurality of printing means or different color of printing means to facilitate printing of information and printing of different color image, wherein additional leafing means would be required or would be obvious to include additional leafing means to accommodate the additional printing means. Such modification would make the system more effective and more desirable, wherein the passport documents could be designed into multi-color documents to enhance the document quality and security. Furthermore, having a plurality of the elements disclosed by the prior art is merely duplicating the same element to perform the same function as the prior art. Therefore, it would have been an obvious extension as taught by Devrient.

Response to Arguments

5. Applicant's arguments with respect to claims 1-27 have been considered but are moot in view of the new ground(s) of rejection.

The plurality of leafing mechanisms and the plurality of personalization mechanisms necessitates a new ground of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2876

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
